We build cakes entirely by your taste: You can choose one cakelayer from our showcase as the base for your cake. After that, you get to choose one of the creams from the pastry bags – this is a **small Lise**. If you like, you can add a second base-layer and a second layer of creme on top – this is the **medium Frieda** – three-ply we call it **Mathilda**. With the multiple layers you can choose various base-layers and different creams. In summertime we also serve ice cream which you can have instead of the regular cream. One Topping is included. You can choose from all the fruits, nuts, sprinkles and sauces we have in our display.

Did you know we bake and produce all of our cakes and creams ourselves and avoid using wheat? Also, we always have vegan (veg), lactose free (lf) and gluten free (gf) options for your cake.

*Since we focus on taste in the production of our creams, it may happen that, depending on the temperature and toppings you chose, your cake may tilt or melt.*
